

To All Presenters

The seminar presenter programs is now under Rider Education and has been for a while. District Educators are responsible for the program in their state. I have reviewed the data printout for Illinois and to put it nicely it needs to be updated in the worse way. The only way that can be accomplished and easy for all of us is to start over by everyone doing a seminar renewal. So I have attached a renewal form for your convenience to fill out an mail to my address below. Please make sure your double check and have the correct information including e-mail. I would also ask that at the top of the form include what chapter you are with. Sense many of you are not showing current for the last 2 to 4 years I would include all the seminars you have taught and what year you taught them in if possible. There are many who show no seminars at all.

By renewing you have committed to doing two seminars in two years. At the end of the two year period you will have to renew again. The responsibility of meeting these requirements lays with each presenter. If you do not want to renew let me know so I can remove you from my list. With a chapter meeting 12 times a year there should be time for at least one seminar per year. Work with your Chapter Educator and Chapter Director. Advance planning is a must to get it on the chapter schedule. When doing a seminar have a seminar presenter rooster signed by person present, make a copy for your records and sent the original to me. I have put a February 15th deadline on the receiving the renewals. February 16th the renewal will go to National to be entered into the dated base. If I don't receive a renewal form I will assume you do not want to renew. If you have just recently renewed or gave me a renewal form at Winter Warm-Up I don't need another. If you have received your new presenter card this year please send me a copy of your new card. I can then update you on our list. Questions or comments are welcomed.
